

# Press Release: JUICY ROADKILL

## Press release 1 (127 words)

Snotty. Offensive. Straightforward.

That's how it sounds, when JUICY ROADKILL enters the stage with rage in their stomach and love in their hearts, to provide a stunning punk rock show. With their lyrics they rub salt into the wounds of society, while musically expanding punk with new facets. Instead of yearning for the good old times, the music of the four friends is brought alive by fresh ideas, courageous alterations and innovative interludes. Rather than being overwhelmed by the world, they push it forward with their punchy sound. Since 2015 JUICY ROADKILL is found live on stage in order to fire up the crowd vibrantly, filthy and provocatively. In course of that, catchy melodies meet a wild performance on stage and sincere words come upon danceable rhythms.

## Press release 2 (45 words)

JUICY ROADKILL stands for snotty, offensive yet melodic punk rock shows bringing together catchy melodies with socially critical lyrics. A well attuned bunch of musicians, that know how to rock the stage and fire up the crowd tremendously. So be prepared and enjoy dirty "Punk'n'Roadkill".

## Press release 3 (Single: WORK) (143 words)

"You gotta work!" - While society increasingly devotes itself to meaningless work, the modern working class is missing the necessary recognition and support to master their profession with dignity. Juicy Roadkill's new single *Work* aims to throw a spanner in the works and questions the reality of 21st century labor.

The title *Work, Work, Work* describes the brutal monotony that emanates from this reality. A repetitive basic sound driven by the bass meets a catchy chorus. A danceable song served on a steamroller. In contrast, *Social Skills* is emotional, melodic and accusatory. The song addresses the lack of respect for socially important professions. A classic workers' song straight out of punk rock!

*Work* is Juicy Roadkill's second powerful single this year and shows that emotion and melody have a rightful place in punk rock. A single that strikes a chord and affects everyone!
