REDSTONES: A BAND FORGED FOR THE STAGE

This energetic quartet with heterogeneous rock that subtly blends powerful guitars with shots of electro, could well prove to be a precursor. By 2023, they'll have warmed up a number of festivals and venues, including two appearances at LA LAITERIE ARTEFACT STRASBOURG, THE VENT D'EST FESTIVAL in FURDENHEIM, and DAS FEST FESTIVAL KARLSRUHE (GERMANY).

VOCALS – WILLIAM MATTER

GUITAR – BENOIT FINCK

BASS – MATTHIAS GAAB

DRUMS – YVES FITTERER

The debut album **UP & DOWN** released early 2018 is tormented, sincere. As a concept, it narrates life of a fictional character who drown slowly into madness. Single «The Soldier» talks about two children from opposite lifes, stories and cultures, paradoxically equal against a common demon: War.

— BEFORE WE DIE —

BEFORE WE DIE - The new REDSTONES album takes its place in orbit in February 2024. More assertive, more defined, this new record takes the band into a sharper world: Bordering on rock with metal influences, on the edge of pop and electro, BEFORE WE DIE marks the end of an era, and like a catagenesis, the culmination and beginning of a new identity.
