

THE LEGENDARY

stage rider 2018

Monitoring:

on stage, we prefer a total of 4 wedges + 1 Drumfill.

Mix 1 (Guitar 2 - stage right / 1 wedge)

Guitar2, kick, snare

Mix 2 (Bass, Background vox - stage left / 1 wedge)

Guitar 2, Background Vox, Main Vox, kick, snare

Mix 3 (Main Vox, Guitar 1- stage center / 2 wedges)

Main Vox(a LOT), Background Vox(a little), kick, snare

Mix 4 (Drums - drums / 1 drumfill)

Bass, Guitar 2, Guitar 1, kick, a little of all drums

Electricity:

We require 230v outlets for all stage-front and stage-back positions.

Mixing Board:

we need a board with at least 16 Channels, a full parametric EQ, and reverb/delay effects.

Personell:

we are usually travelling without a Sound Technician, but are happy if the local Soundman would consider adding some effects to some songs at some specific times which we will provide as info.

we are usually travelling with a Light Technician who brings his own board, but also can use the local board.

General Mix:

Lead Vocals nice and Loud, Background vocals not as loud as a 2nd lead vocal, but also not as quiet as regular Background vocals.

Guitar 1 and Guitar 2 both equally Loud. Guitar 1 has a lot more low-end than Guitar 2. If possible split R/L on Main to about 10 o'clock / 2 o'clock.
