

# EXOCORE

It's early 2022. Five eager musicians get together in Northern Italy to rock out. They hit it off right away and thus EXOCORE is born. Shortly after that, they find themselves writing and releasing their first songs. Ignoring boundaries between styles and eras and mixing elements of Rock, Metal, Hip-Hop, Folk, Acoustic and Alternative together, is what gives these five guys their distinctive, musical edge.

After publishing their first song „Reflection“ they quickly followed up with „Who Hurt You The Most“ they released their first music video with „Out of Sight“. Their newest single “Torn” even tackles a very important topic: Abuse and it's consequences. Not only do they enjoy writing music, but also produce everything on their own.

They have fired up their engines and chosen to steer down adventure lane with one goal: to communicate PASSION and MEANING through sound, lyrics and aesthetics. Join them on their ride!
