666% BULLET PROOF HEAVY ROCK AND METAL MUSIC

Introducing BLIND MAN'S GUN, the female fronted heavy rock and metal band from Hamburg's (Germany) underground. Uninfluenced by the mainstream, they play fierce rock and metal music as they see fit. BLIND MAN'S GUN's music is dramatic and passionate, every word well-considered and powerfully interpreted. Heavy guitar riffs meet front woman's (Naddy Gunn) melodic vocals with unpredictable outcomes. Expect manic and subtly obscene & thought-provoking lyrics.

The band has shared stages with a diverse rooster of German and internationally recognized bands (Iron Maiden, Battle Beast, Jinjer, Judas Priest) at festivals like **WACKEN OPEN AIR 2023 and 2022**, Fahrdorf Open Air 2023, Blizzarrd OA 2022, Rock das Ding OA 2022, Baltic Open Air 2019, Norddeich Festival, Metal Monday at Knust Hamburg and many Clubs like „Indra“ in Hamburg (where the Beatles played). Amongst others the band had features in magazines, radio stations and appeared on German TV (NDR).

If you think this female fronted band is a dud shell you've got another thing coming. Naddy and her boys are energetic and experienced performers with hearts in the right place.

Spring 2013 BLIND MAN'S GUN released its debut EP "HELLDORADO" which was reviewed by Ulf Kubanke (www.laut.de). „Naddy Gunn and her boys at their best!! Their album is the opposite of a dud shell.“ The close compositional collaboration between guitarist Lars and singer Naddy Gunn has spawned the majority of new raw material that resulted in the making of their second album "BEYOND THE DARKNESS". It was officially released October 28th 2016 (Alster Records). Centerpiece of the new album comprises three songs: Evil Eyes, Beyond the Darkness & One Thousand. The trilogy is about the destruction of the earth by the greed of the human race.

In 2017 Jörn joined as drummer replacing Arne and Tomeck (replacing Sebastian) as new guitarist. Both have contributed quite some amazing musical input.

2020/2021 was a special year. All shows had been canceled due to the Corona virus but Blind Man's Gun continued to release several singles. "Fireblade" was released May 28th 2021 and has been travelling around the world and metal scene ever since.

Since 2023 the very talented Michael Meyer aka Mitsch (ex Iron Angel guitarist) joined the band replacing Tomeck. Mitsch has contributed great musical input from the beginning and has successfully played his first shows at Wacken Open Air and Fahrdorf Open Air with Blind Man's Gun.

Reviews:

Baltic Mom Gabi Spinler Baltic OA Show 2019: „There is a petite woman standing on her very pretty legs and she has a vocal power that blows you away and makes your pelt go up and down. She IS pure Rock N Roll, she lives it with all her might and all this positive energy, which her really radiant boys also bring across, are and should be a role model for everyone. Everybody has his or her own bag to carry in life, but this „bunch of heart and soul rockers“, as I imagine them, are only rarely to be found nowadays...”

Music Ghouls 2019 about a show: „To me BMG were the surprise of the evening. Rarely has a female-fronted band been able to pick me up like that. What a voice! A great show, great lyrics and great music were the programme this evening. I have to admit that I am not a big fan of female-fronted bands of the modern era. However, I was more than pleasantly surprised by the rocking voice of dear Naddy G.“

Harburg Aktuell 2018: „Front woman Nadine is already something of a heavy rock icon in Northern Germany.“

Fireworks Rock & Metal 2017 about album „Beyond the Darkness“: „BMG then trickle through their genre-traversing trappings one-by-one, drifting off into a triptych of songs detailing the destruction of the Earth at the hands of humanity and their last-ditch attempt to save it. The conceptual trilogy 'Evil Eyes', 'Beyond the Darkness' and 'One Thousand' come off as if Megadeth were a NWOBHM act and Dave Mustaine had suddenly become Mrs Mustaine, taking a walz through their 'Youthanasia/I Risk' days.

Black Phoenix Rising U.K. 2017 about EVIL EYES: - This is the first track of the centrepiece trilogy about the destruction of the earth by the greed of the human race. This is a stonking hard hitting rocker full of gutsy beats and powerful driving deep licks. Naddy really shines here with her harsh vocals and aggressive tones. Top notch lead guitar work, gritty deep bass notes and thundering drums all combine to make this track a storming affair that has a Sabbath style feel in places. Good changes of pace within the number gives it that extra interest. Over powering stuff with Naddy's vocals really soaring in places. AND MANY MORE

Ulf Kubanke (www.laut.de) about „Helldorado“: „Naddy Gun and her boys at their best!! Their album „Helldorado“ is the opposite of a dud shell.“
