Chaos Path support Chaos but not as a weapons exhibition of
technical possibilities. Definitely not. Their gunsight is much
more precise oriented. "Reduced to the Max" is the key to
follow the four musicians on their Chaos Path.

shaped Death/ Black Metal meets the surliness of german Thrash
Metal and forms an independant mixture. In March 2018 they
released their first EP "The Awakening" and in September 2019
their first full-length LP "Downfall" came to life. In 2020/21 the band
wanders through line-up changes: Soul Obliterator became the new
drummer. On January 28th 2022 they released their new EP "Dark
Times", in March Nocturnal Reaper was announced as new guitarist
and in November The Doom Lord was added to the line-up. At the
moment they rehearse for album number two.**
