

NEON ZEON has been formed 2016. Band members Skadi (vocals), Fernst (drums), Lepra (bass), and Joe Amped (guitars) are all veteran musicians. They have appeared with major acts like Biohazard, Satyricon, Kreator, Arch Enemy, Tankard on tour or at festivals like Legacy Open Air in Germany.

The band uses 8-string guitars, complex technical playing, strong melodies, blast beats, cinematic hooks, and acoustic guitar textures to write progressive black death metal songs that stand apart from their peers and maintain a formidable identity.
