

THE MOST FAMOUS UNKNOWN

TECHRIDER 2023

Thank you for reading the technical rider of THE MOST FAMOUS UNKNOWN.

To make sure the crowd gets what they deserve, which is fun, good music and getting laid (whereof the last point is not really up to us), this rider is part of any performance contract signed.

If there are any questions or issues after reading this document, feel free to contact

And in case (most certainly) you wonder "who the f****...", THE MOST FAMOUS UNKNOWN are Marco (Bass/Vocs), Ben (Drums) and Daniel (Guitar/Vocs)

Stage

If available (if not please tell us in advance), we prefer a stage of 5x5 meters minimum.

We need at least 3 monitors on stage (following the stageplot). If in-ear monitoring is available, less than 3 monitors are ok.

We need at least 4 powerplugs (220V) on stage, two in the back and two in the front (following the stageplot).

We need 3 vocal microphones (SM58 preferred) on stage.

If the PA allows miking all instruments, please check the miking table for our needs.

30 minutes of soundcheck at least! Everything less sucks kind of (remember the crowd is supposed to identify the noise as music).

A sober and an at least slightly enthusiastic technician would be awesome. If he is really good at his job, we don't care if he is drunk and pissed :-)

If possible, please record our performance.
