

*"Singers And Songs will never change it alone - we are Calling You!"**

Official press release

In the context of the difficult Corona time for artists/musicians the idea matured in the Christmas time 2021 to realize a Christmas song with many artists. 28 musicians finally found each other and realized the project.

The text part above of Ronnie James Dio's HEAR'N'AID project "Singers and Songs will never change it alone - we are Calling You" was not chosen as headline without background - we need **YOU** (radio stations, streaming services, newspapers, promoters, supporters, etc.) to make the project a success.

We musicians, sound engineers, studio owners have now made our contribution free of charge and put our time, energy, heart and soul and money into the project. We think it has become a beautiful song, where every single musician has left his personal footprint.

Now it's up to you to give us the necessary support and promote the song! An appropriate recording medium is attached....

It's a good cause and hopefully helps to donate a big amount to the "Herzenssache" campaign through fundraising, streaming downloads on all major platforms as well as CD sales.

Official song release is on the 1st Advent (27.11.2022) among other things also with a music video on youTube!

More information about the song and the musicians / artists involved, lyrics and song structure are described on the next pages.

We thank you all in advance and remain with the best musical greetings

We're wishing you a merry Christmas

Lyrics: Wishing You A Merry Christmas

Verse 1:

Lights are turned down low now while the icy cold wind starts to blow
Children listen to the bells of the sleigh out in the snow
Longing for a peaceful time, even like the ones we used to know

Pre-Chorus 1:

Stars are shining bright
Like tiny candle lights
Fill your heart with love and warmth tonight.... here on earth

Verse 2:

Don't you think of the others out there who have lost their dreams and their homes
somewhere
How they may feel on this holy night when it's cold and dark outside
Let them find a shining light just to guide them through the painful night

Pre-Chorus 2:

Send em all a prayer
And let the candles shine
Wishing of a merry Christmas time ...

Chorus:

**When the angels start to sing
And all the bells are ringin' together
Let the light of love come in
And banish all our fears forever
Tell me what this night will bring
When the snowflakes fall around us
A merry Christmas Eve.... to everyone around the world!**

Outro:

Dare a look through others' eyes
You will see too many lies
Is There any Turning back?
What you give is what you get
Have you ever realized
That we live in paradise
All we have to do tonight
is always think of you with pride

Wishing You a merry Christmas Time
Wishing You a merry Christmas Time
... from us all...
