

Coolest

Coolest (Dresden, Germany) was founded in 2006. The band plays a mixture of hardcore and new-metal and with their unique sound they create something what's hard to find. Melodic vocals and hammering basslines lead up into deep and aggressive walls of screams with a massive guitarsound. The music of Coolest is deeply influenced by bands like Slipknot, Mudvayne or Hatebreed, but still it has its own face and lives from a lot of dynamics and creativity. In Dec. 2009 the band released their debut-album „Stiltwalkers“, which was mastered by Alan Douches (WEST WEST SIDE MUSIC, USA) who is well known for his work with Hatebreed, Sick of it all, Cannibal Corpse, Six Feet Under, The Ramones or Sepultura.

With concerts all over Germany Coolest supported great bands like Megaherz (Germany), Exilia (Italy), Death by Stereo (USA) or Seita (Netherlands). A worldwide and loyal fan community encourages the band to go beyond their own borders.
