"Making Music For a Propose.

I believe that music Play a big role in your life,
it clears up your consciences , it helps from negative to positive .

Actually I look after for People missing help,
poor People, Refugees, Children and Woman
or prisoners with out coz.

Climate Warming, Animal care and many
other deficiencies courses provoked by
Man Kind and fighting racist and discrimination in my song.

I've been searching among us our attitudes and I found out that we have to be passionate
to one another. There is no reason for excitations

I've been making music for many, many Years.
Joining a lot of bands in my life just for one purpose, to have joy, right of expression and
a song to sing delivering music in your
heart and mine too.

We Know that exist people they think that they have more to say than others, or they have
more rights, but we tolerate and we accept dialog."
