RAYGUN REBELS

For over 15 years now, the Raygun Rebels have been causing a stir on stages around the world. With two albums under their belt and a third on the way, the four likeable guys have already supported big names such as Rose Tattoo, Skid Row, Thundermother, Richie Sambora (Bon Jovi) and many more. With well over 300 shows in over 14 countries, the Raygun Rebels have earned a steadily growing international fan base.

An explosive and high-energy stage performance turns every venue into a wild rock party from the first song. Catchy guitar riffs meet earworm-worthy hooklines. Their straightforward heavy rock, always seasoned with a pinch of blues, brings back the often-missing old school charm to the genre.
