LIGHTS

Below you can find our wishes for light. Please note that these are guidelines, If certain wishes can't be met, we will trust on the light-tech's expertise. Questions are always welcome.

- We'd like a haze and atmospheric lightshow
- If possible, we prefer lights from behind the band
- Smoke is cool, but we still need to breathe
- No front-spots please
- If it's too dark on stage, use a little of bit front-spots
- In between songs, darkness is our friend
- Not more than 2 or 3 colors in one song
- We don't prefer blue

Thank you and enjoy the show

¡Pendejo!
