

Crossroads

1.

You always say, there is no way back
You always say, we need to face up to the fact
But when we're standing at the crossroad of life
You can't say a word, you just break down and cry.

Chorus

**It's you and me, yeah
standing at the crossroads of life
It's you and me, yeah
standing at the crossroads of life**

2.

Here we are, like we both knew before
Here we are, made our personal world war
And now we're standing at the crossroad of life
We can't say a word, we just break down and cry

Chorus

**It's you and me, yeah
standing at the crossroads of life
It's you and me, yeah
standing at the crossroads of life**

3.

I love you, I hate you
You need me, you leave me
I want you
There's a decision to make

Chorus

**It's you and me, yeah
standing at the crossroads of life
It's you and me, yeah
standing at the crossroads of life**
