Techno / Producer

Alex Halka is a Romanian homegrown Producer & Dj who covers a variety of crossover musical territories, from techno to contemporary art installations & theatre. Always searching for new textures.

His vision of techno combines raw granular textures, dark punk vibes and psychedelic layers of vintage synths. He discovered and fell in love with Techno while searching for a new aesthetic dimension to his theatre compositions & audiovisual art.

Influenced by German & Romanian sound, his sets & rhythms are perfect for any event, whether it's an intimate club or a 5am rave.

For a while, his musical career has been blended with acting, during his work as an actor at the German State Theatre in Timisoara (Romania). He graduated in Acting at the Conservatory of Music, Timisoara(2007) and made his debut as a composer, producer & Dj in 2009. Since then, he composed the original soundtracks for more than 30 productions of institutionalised theatres and independent ones, with significant impact on both scenes. Being featured on magazines like Electronic Beats Romania , feeder sound & urban-stylemag.gr his work covers different territories like: audio-visual art performances, live sets (Clujotronic Festival 2014-2016, Arad Open Air, Electroruga, Embargo Fest) and music written for documentary film.
