

- Purzelbär Swing Club -

With their own bawdy brand of electro-swing, the Purzelbear Swing Club mix old swing-jazz and honky-tonk styles with an industrial-synth-funk groove to create a sexy, sweet, exclusively live-performed, raucously hip-swaying sound sensation. With its danceable rhythms and improvised solos, this music finds itself – never without a touch of irony – on the highest niveau of lavish, light-hearted, unruly revelry. This band will have your ears, your feet, and finally your passions swinging in time in no time at all.
