

KEEP THIS IN MIND

HARDROCK / POST-GRUNGE | GARMISCH-PARTENKIRCHEN

FLO - VOCALS / GUITAR | MARCO - GUITAR | ROBERT - BASS | CLEMENS - DRUMS

BIOGRAPHY

"Keep This In Mind" was reformed in 2012 and we have since then been focusing on creating music that people can relate to musically as well as emotionally.

Every song is based on an experience, that at least one of us has had to endure in our lives.

All four of us play an important role in creating our general sound and in the creative process of writing our songs.

Marco and Florian come up with guitar riffs, that mostly form the foundation of the songs.

Robert then follows up with a big heavy baseline to underline the riffs and add more power.

By adding Clemens' dynamic and technical drum patterns to the songs, they all have their own feel and vibe to them.

Our latest additions to our sound are melodic orchestral and fairly experimental interludes.

Lastly to round off the songs we add Florian's grungy vocals to make the "Keep This In Mind" sound complete.

We've had 4 releases until now, including 2 EPs, a video series release and a Single release with additional music video.

Our main goal is to play as many shows as possible, to spread our message, to please fans, to make music and to have as much fun as we possibly can.

Music has always been and will always be our creative outlet.
