

Ardent Spirits was born out of former members of the Nuremberg bands and could already make a name for themselves through their accompanying Melodic Black / Death Metal in Nuremberg and the surrounding area. Since the summer of 2014, the recording has worked meticulously on a live set, which has been shown several times since spring 2015 (as support of the Finnish band Whorion, with the current Finntroll drummer, in the new force in Erlangen!).

In the summer of 2015, the first 3 TrackPromo / Demo CD was released in self-government and promoted with further gigs in the area, e.g. As a support of Kingbeast in Nuremberg, who received the demo of the month in the November issue 2014 in Rock Hard magazine with their debut "Demonic Beast arises"!

The texts of Ardent Spirits usually deal with fantasy / travels in the unknown / fights with death and spoiling and the processing of personal things / abysses.

At the end of 2015 work began on the second release, our first full-length album!

So be told to all the people who are on hard, melodic Black / Death Metal with melancholic melodies ... keep the guys in the eye or ear.  
Stay Heavy!
