## **LAVENDER**

### **Tiger-Release Concert Wed. 11 April 2012**

The Music of LAVENDER breathes fresh pop music often with flavors of Folk and feels earthy and honest like Blues and Soul. The remarkable Solo and Harmonic voices of Anouk, Carlijn and Floortje is the bands trade mark. Their harmonies rest and rely on the instrumental work of the experienced Jazz and Rock musicians Peter Bongard (piano, Fender Rhodes, Melodica), Markus Wach (double bass) and Jörg Dobrick (drums, percussions). Now their first studio album named "Tiger" like one of the songs on it is ready to be published. It contains a selection of 11 original tracks. On the SET-List of LAVENDER you can find both remarkable original songs and compositions, as well as some rare "pearls of pop" of favorized artists.

The record release concert for "Tiger" was on April 11<sup>th</sup>, 2012 in the renowned Kino-Traumstern, a highly recognized Movie and Stage Theater in Lich, Germany. The house was sold out and it was a beautiful concert, especially because of the intimate connection with the audience which is typical for Kino-Traumstern and for Lavender.

Bottom line:

The music and stage presence of this band ranks among the category of mood elevators and are more effective than any antidepressant!

Once again, the Giessen area can be proud to have produced an extraordinary band.
