## **No fairytale hours**

With unexpected significance "GRIMM" and their singer Hilke Braun are kicking the hard line musically never remaining permanently in one of their basic extremes – rock & metal. They admit to serve the listener a well-flavored mixture of the full range of those styles which is based on growling, singing, melody and always a lot of pressure! Both inveterate Rocker and Metalheads will always get on their expense! Wanna taste?

## **Ambitions:**

*"Even we are despising small stylistic variations we feel at home in Metal quite clearly and are always gaining to deliver the best possible show. We work hard to raise the level of our music technically and to kick ass for the show to boost it up. Climbing up on stage, we keep pointing our most important promise: "... have fun and thrill the audience!"*

## **GRIMM are:**
