

# GERMAN SHEPHERD RECORDS

Different Music For Your Ears

## PRESS PACK

## INTRODUCING PrunX

PrunX are a band from Berlin who began working with German Shepherd in 2017.

The original band project, HoloTropicTrancePunx, was formed around the turn of the century as psychedelic crossover song factory located at the tRaumstation studio at former RAW-tempel in Berlin. The band has undergone several line-up changes since that time.

Their extraordinary and diverse song material centres around Frank Oz' compositions and the vocals of the sisters Mikado and Joushi. They are keen to cross over genre boundaries and musical collaborations with rock, punk and post-punk being key elements of their approach. In the last two years they have concentrated on new material and studio work collaborating with a range of musicians including N.U. Unruh of Einstürzende Neubauten. As well they constantly publish videoclips of their songs.

They have released two EPs with German Shepherd Records - Vol. III and Mind Trajectory. New material is being planned for later in 2018.
