

## **WICKED DRILL**

**Wicked Drill are a three piece psychedelic funk rock powerhouse formed in 2019. They immediately set about writing and recording enough songs to fill practically two full albums! The first EP entitled "Not my Song" was released in June 2020. So far followed by 15 singles on streaming platforms. Meanwhile the catalog includes 40 songs!**

**With Wicked Drill, classic and heavy rock meet dirty funk. Passionate and consistently beyond the zeitgeist, Wicked Drill go their own way. The band has been writing and producing their very own psychedelic funk rock for the last few years. Live, this manifests itself in a rousing concert experience fueled by spontaneous, unpredictable jams. The massive network of sounds of this wicked drill consists of Hendrix/Zeppelin-like guitar riffs, rock-hard slap bass and fat drums, which not only catches your ear but also gets your legs moving.**

**Wicked Drill are:**

**LeCorse Rouge: guitar, vocals**

**Zeb Ra: bass, background vocals, and ... more bass**

**Targel: drums, electronic percussion, background vocals**
