

English Version - short

After almost 100 gigs performed, the band relaunched as Arrive! A smoky voice with two guitars, bass and drums creates a powerful rock-sound. Music made of passion and sweat – distorted, melodic, real and handmade. Catchy songs and Live-Shows that carry one away!

English Version - long

Arrive! Four dudes, straight out of Ulm. More than a band but a gang. A bunch of pals rocking the stage. With more than 100 gigs since 2011 they'll transform the place to your favorite pub - a night out with your best buddies. Telling romantic stories of drunken party nights. Laughing out loud, embracing strangers, dancing free and wild. This is more than music. This is Alternative Rock with a rough and husky voice pushed by cracking guitars and a booming bassline backed by propulsive drums. F*ck me! You'll remember this night. Chaos as a compass, visceral tunes forcing you into action and hooks you won't get rid of. Until, finally, the band bursts the amps to 11. You Arrived!
