## TRAVEL PARTY & ARRIVAL ARRANGEMENTS

The Band always comes with 5 musicians. Other people who sometimes travel with the band are person for the merchandise or / and our own sound engineer. However, this does not apply to all gigs of the band. We will inform you in advance how many people will arrive.

### Parking

The band needs space for at least two vehicles and a trailer or a van and a vehicle near the venue.

### Helping hands

We need 1 or 2 helping hands to unload and load before and after the concert.

### FOH

If our own sound engineer doesn't come with us, it is necessary to have a sound engineer to help set up the stage.

### Food & Drinks

At arrival a decent, healthy warm meal for the band and their crew is required (vegetables, meat, pasta, fruit,...)  
PLEASE NO FAST FOOD! After the Show some sandwiches would be very nice. Contractor agrees to provide free drinks (water, softdrinks and beer). Please note that we have a vegan in the band.

## ACCOMMODATIONS

### **Rooming**

If the band does not go back home after the performance (e. g. because of a distance or a gig abroad) 3 double rooms will be required, depending on the number of people arriving. We will inform you in advance how many people will be traveling with. A clean and close to the venue located (otherwise a shuttle service) pension is sufficient. We don't need a luxury hotel!

### **Backstage**

A clean, dry and warm, lockable as possible space for storing the instruments and to prepare for the appearance is required.

### **Merchandise**

A clean table about 2 meters of length with easy visibility and access for the people. Power outlets for our lights are required. Please inform us upfront if the festival takes a % of our merch sales!

## Stage

### **Monitors**

All Channels checked on signal BEFORE sound check.

### **Light specs**

Don't use stroboscope effects in total darkness! We prefer a hazer and not a smoking machine. We prefer white and dark colours from behind, like red, blue, purple...

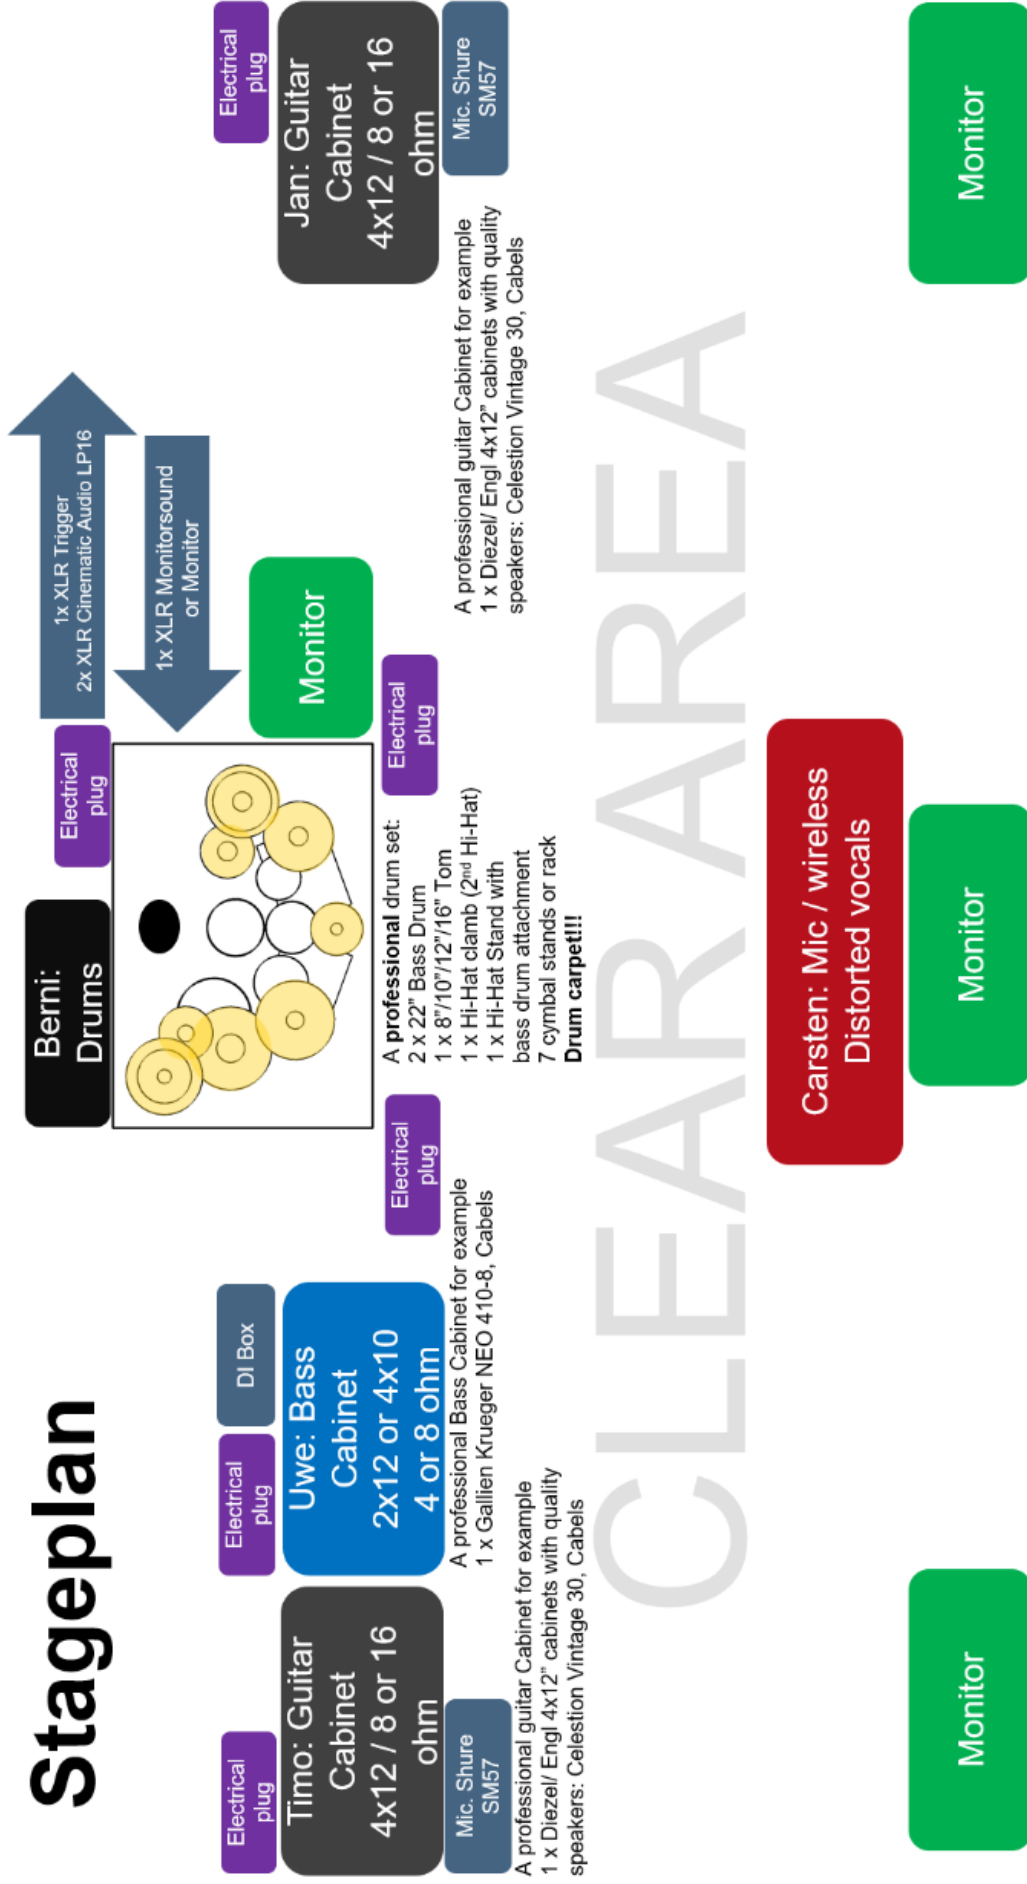

### **Backdrop**

Godskill will bring a backdrop, at least 3 meters high and 4 meters wide. We need assistance hanging the backdrop. A pipe or truss should be provided.

We need 10 cans/bottles of water on stage.

**We need at least 20 minutes building and sound check time at club shows.**
