Isn't – Leave Our World

Posted on 25. July 2022 by Ulf Backström in Nyheter, Snakk // 0 Comments

Each day Permafrost receive alot of inquiries from promoters, labels, band, musicians etc. Regarding the band Isn't it was Sanyi from Forgacs Promotion and chief-editor of Hungarian Fémforgacs webzine that reached out to us. The band Isn't is a female fronted melodic death/doom metal band and Sanyi would like to draw our attention to the track *Anything*. And we really appreciate this music and Forgacs Promotion.

The married Sívák couple living in Germany (Márta-vocal, Krisztián – guitar) create the core of the band Isn't. Starting out as a project, they now became a full-fledged, concert ready band.

The former Bass guitarist Péter Karcza left the team and in his place came Simon Krah from the band Deciever. The drummer became Björn Grontzki (Bloodspot), and the other guitarist Aron Störmer.

The band have completed their third five-track EP, called Leave Our World, which will be released on digital streaming services on 31 July. It is planned that most of the EP's songs will have some kind of visual material. First, before the release they give us some life signs with the clip made for the opening song *Anything*.

The band was founded by Krisztián Sívák (ex-Panzer Division) in 2020. The band starts at Brake and can be linked to the birth of the song. Dávid Gece (vocals), Péter Karcza (bass guitar), Krisztián and his partner Márta can be heard in the five songs of the first EP.

Márta's much more varied and powerful organ can be heard in the songs of the second EP. The band works and creates in the spirit of DIY. Zoltán Sipos stands by the team as a permanent assistant, mixing and mastering the recordings.

In 2022, the concert-ready line-up of the band was formed. Leave Our World was completed. EP, which is introduced by the music video for Anything. Nightfall EP (2021) Heartless EP (2021) Leave Our World EP (2022).

About Ulf Backström (7304 Articles)

Mitt hovedfokus er musikk som er basert på progressiv tenking. Jeg er på ingen måte ensporet innen musikksmak, i likhet med intensjonen bak prog. Sjangerbegrepet er egentlig temmelig uinteressant annet enn til å gi en pekepinn om hva slags musikk det er snakk om i en anmeldelse. Jeg søker god musikk for å utfordre meg, som lytter. God musikk til å trigge mine musikalske smaksløker, og til å sette i gang mine refleksjoner. Da er sjansen stor for at jeg utvikler meg og lærer, noe som bør være drivstoff for et hvert menneske. Fordi det å lære og utvikle seg er noe som tilfører livet en nødvendig porsjon "krydder". Slikt krydderet finner man blant annet i musikk. Ikke overraskende mener jeg at progressiv musikk har den fineste "smaken". På den annen side kan musikk med eller uten progressive elementer være godt nok til hverdags. Til fest derimot holder bare rendyrket prog! Må jo også få med at jeg rimelig kritisk, og jeg mener at det lages mye prog som er i beste fall uinteressant, og faktisk mye som er pinlig dårlig. Heldigvis oppveies dette av ekstremt dyktige aktører som for eksempel: Flower Kings, Mostly Autumn og White Willow, for å nevne noen tilfeldig valgte.
