

Tempest Creek is Dennis Jeschke (vocals), Frank Lehmann (drums), Dennis Otto (leadguitar), Chris Wiercimok (bass) and Martin Wiercimok (rhythm guitar). Established in 2016 the quintet from the Düsseldorf, Germany area take on influences from stoner, southern and modern hardrock.

The band members share a musical past for more than a decade playing together in different bands. Dennis Jeschke became the singer of Tempest Creek by coincidence. After collecting a gift for a common friend from the rehearsal space and giving a short vocal performance he was offered to join the band. Prior to joining Tempest Creek he used to sing in a choir for most of his life.

Tempest Creek's full-length debut record "Joyride" will be released May 1st 2021 on all music streaming services and in physical format.

The ten featured songs are reminiscent of titles by bands such as Black Stone Cherry and Kyuss. The band wrote and produced all the songs themselves. While the lyrics were written by Dennis J. and Dennis O., Chris composed the music. The bassist produced the songs in cooperation with Frank. It is not the first time that Chris took to the studio: He gained professional experience in Los Angeles, USA creating a sound logo for a well-known car manufacturer as a part of a competition.

With the release on May 1st 2021, a music video for the title track "Joyride" will be published as well. The debut single "Pieces" was released on April 2nd 2021 featuring a lyric video on Youtube. The song about heartbreak and betrayal is available on music streaming services.

Tempest Creek performed at several German festivals and events including the Rhein-Rock

Open-Air in Monheim am Rhein and the Evangelical Church Congress in Dortmund.
Their next gig is scheduled for June 6th, 2021. The guys will perform at the regional finals of the SPH Music Masters Contest. The event will take place in Wuppertal and will be streamed online.
