

Indie. Folk. Pop. Jetlagged sounds like a journey abroad, awakens memories of your roadtrip in a campervan and inspires your mind to wander.

"Your Touch" is an acoustic guitar, bass & percussion driven indie folk track which feels like an intimate

moment with your crush. The listener can feel the singer's romantic passion and longing. The song's mood is dreamy, sexy, laidback and hopeful.

The German acoustic band has been performing and recording together for over fifteen years now, reaching listeners of all ages and nationalities. Acoustic guitars alter between gentle fingerpicking and driving rhythm, percussion & bass enhance the rhythmic patterns and the violin adds melodies and depth.

Influences: Glen Hansard, Dermot Kennedy, Mighty Oaks, Snow Patrol, Of Monsters and Men, The Paper Kites, Death Cab For Cutie, The Lumineers
