

# BEYOND OBSESSION

## PRESS KIT

*"They are one of the best representative synth pop bands today."*

– Reflections of Darkness

## BIOGRAPHY

André and Nils constitute the synthpop-duo BEYOND OBSESSION in 2012. They celebrated their first success with their debut album "Listen, Learn and Speak" which consists of freshly sounding melodies in combination with the sensitive voice of the lead singer Nils.

The suspense-packed atmosphere which covers the whole spectrum of synthpop with the brilliant chants and its catchy eletropop sounds was continued and developed on their second album "Pieces of Machinery".

With the third album "Moments of truth" released in September 2016, the unique sound reached its preliminary high point. Emotional ballads with a high textual quality and depth inspire to think about and prove that BEYOND OBSESSION produce not only hymn like and danceable songs, but that emotional and sensitive songs belong to their repertoire as well.

Also live, BEYOND OBSESSION know how to inspire and fascinate their audience.

Both members are settled in Rostock and Potsdam, Germany. Beyond Obsession is currently working on new music that is planning to be released during 2018. So stay tuned.
