

MODERN DEATH METAL

Epitome Of Frail was founded in spring 2001 and plays a powerful mix between metal/death metal and hardcore. After playing some local shows, they recorded their first mini cd °°THE ART OF BEING FRAIL°° in 2004. In 2005 they recruited a second guitar player and entered the studio again to record their first album °°Epitome Of Frail - APOCALYPSE°°.

After that they played tons of shows all across Germany with outstanding bands like KORODED, CATARACT, BORN FROM PAIN, DIECAST, NAPALM DEATH, SWORN ENEMY, MOST PRECIOUS BLOOD, TURMOIL, FALL OF SERENITY, BLACK DHALIA MURDER, WARBRINGER, MAROON, ALL SHALL PERISH and the almighty HATEBREED !!!

In spring 2007 they recorded their third album °°LEAVING THE PAST BEHIND" which entered position 2 on the www.laut.de metal charts and stayed there for over 2 months!!! With every show the band established °°EPITOME°° more and more as a monster-moshing-and-completely-outstanding live act!

New Album 04.2012: "Society"!
