Orkus! Magazin

Roggenfänger

Special Music For Special People

With their concept album ‚Black‘, Scintilla Anima paint an artistic masterpiece about good and evil into the minds of their listeners. In their ‚Wall of Dark Sound‘ the band from Düsseldorf around Muse Trinity sometimes produces Pop, sometimes New Wave or even Avantgarde. The single ‚Awake‘ alone made it into the German Alternative Charts (DAC) and even rushed to the Top Ten at number 7.

Live Scintilla Anima create a combination of music and art through artistic content such as narrative parts or theater-like sequences, without losing sight of the contrasts that are the focus of their work. Various joint shows with scene giants such as Ost+Front, Stoneman, Grausame Töchter or Clan Of Xymox are performed. Only after this, Scintilla Anima withdraw into the studio. No one less than Nico Wieditz - sound artist of And One - is hired for the mixing and mastering of the album ‚Black‘. With the album ‚Black‘ in their pockets, Scintilla Anima embark on their musical journey, on the path of good and evil, knowing that, as contradictory as it may seem, the two cannot be separated.
