

ALL OF MINE

About

All of Mine is a young and ambitious band from Western Germany. They blend post-hardcore with alternative rock and shoegaze. Their music is energetic, yet highly atmospheric, always melancholic. Their songs tell stories of love, anger, grief and sadness. Those emotions are the foundation of their debut album *Zerfall*. The record, which they produced DIY, will be out in 2022 and draws influences from Casey, Idles and Karnivool, but also from heavier bands like Daughters and Deafheaven. *Zerfall* is made with passion and offers so much to discover. With abrasive songs like *Arcadia*, or softer moments like in *Casualty*, *Zerfall* is a sonic experience.
