CURSED BY THE FALLEN

"When The Sun Turns Red" (Release Date: 03.02.2012)

Summer/Autumn 2011 was the time for CBTF to begin the recording of their new EP „When the Sun Turns Red“. To keep the process as professional as possible, Alex Zilinski (Atom Smash [US], Blue Jade [AT]) took over the production.

The 6 pure METAL(core) songs contain emotion, experience, aggression and endless energy, provided by the CBTF members (Käps, Flo, Noub and Neibs). The production was accomplished in their CBTF home recording studio.

Additionally the band shot their first professional music video for the song „Love In A New Dimension“ under the direction of Florian Eschlböck (Git. CBTF). The shot took place in their rehearsal room.

So be prepared for what's to come - right in your face!

What happened previously...

In summer 2010 the young metal-band CURSED BY THE FALLEN (Grieskirchen/Schlüßlberg - OÖ) was formed to become a part of the Austrian Metal scene.

The first promotion demo was recorded in 2010 and got several positive reviews by PIRGOFABRIK, NECROWEB and the well-known METAL HAMMER.

After some appearances (In Your Face 2010 II, Metalfestl, Rock the DOPPs,...) the pre production phase for the new EP was launched in summer 2010.
