

MUCH BETTER, THANK YOU

The press: *an absolutely exceptional voice surrenders her wild heart to us. (FOLKER!) *** in a word: charming. (LEGACY) *** wonderful significant poetry meets alternativ rock. (FOLKWORLD) *** MBTY accompanies the world's lonely ones with quiet, atmospheric music. (UNDERDOG)*

Much Better, Thank You is an Art Folk Band from Germany. Airplays and reviews show a growing nationwide perception.

The music is a mixture between Indie-Folk and Kraut-Rock. Characteristic feature of Much Better, Thank You's songs from everyday life of stressed and seeking humans - into which a love song gets lost from time to time - is Heidi Engel's edgy voice. „The music reflects everything that moves us and drives us to despair; it helps us deal with it. “

The typical Much Better, Thank You song includes variations in time as well as mood, but actually we love to waltz. You can call the lyric soprano, Heidi's remarkable voice, as elfish, extraordinary or expressive, as you will find it changing between fragile and punchy. Underlined by diversified guitars, which suddenly start to cry and weep, and other instruments like bass clarinet or 5-string violin, the diversity of sound expands with every new song.

This is really independent, though the songs will catch you from the first tune.

Unusual, but for sure - never boring.

... Just a Dream

Much Better, Thank You was formed in 2011 in the living room of the Engels to relax with music and prevent an upcoming burnout syndrome. Michael joined in 2012. In 2014 Much Better, Thank You became a full band. In 2015 Franko took over the drums and in 2018 PL became the new bassman.

Several musical influences unite in these five musicians. The voice and the first guitar grew up with almost only classical music, the second guitar brings in a background of Jazz and Rock'n'Roll, while the bass is based in electronic music and the drums love the creative and experimental part. Thus the band is best prepared to find its own sound.

We call it Art Folk.

Much Better. Thank You
