Backing Synth L	15	-	-	With XLR in stage box
Backing Synth R	16	-	-	With XLR in stage box

Monitor sound

The band alqemiste plays with In-Ear and mixes their monitor sound over their own mixing console.

The following instruments should be connected directly from the mic to the splitter brought by alqemiste:

- Kick drum
- Snare
- Bass guitar
- Guitar SL
- Guitar SR
- Vocals Anthony
- Vocals Fabi

The technicians need cables running from the mic to the splitter and from the splitter to the stagebox. The **black** arrows symbolize the cables of the technicians. Please note!
