

Time **is** **money**

The image features the phrase "Time is money" in a bold, sans-serif font. The word "Time" is rendered in white with a black outline, while "is" and "money" are in a vibrant red with a black outline. The text is set against a solid black background. The entire composition is heavily stylized with numerous white and red splatters, dots, and streaks. A prominent feature is a large, bright white circular explosion or splash effect centered over the word "money", with long, thin white lines radiating downwards from its base. Smaller, similar splatters are scattered across the letters, particularly around the 'e' in "Time" and the 'y' in "money".
