

Cape Town

1.

I took a drive right down to Cape Town
bought myself a gallon of gas,
that should take me all the way down.

The sun is shining,
not a cloud in the sky
my cheavy's running smooth
I feel like I can fly

but you're so far away
Oh baby I'm on my way to conquer you

Chorus

**Am I still on my hot route
Cause I can smell the ocean
I wish that we could make it
My cheavy and I, my cheavy and I
You and I**

2.

but you're so far away
oh baby I'm on my way to conquer you
to conquer you

Chorus

**Am I still on my hot route
Cause I can smell the ocean
I wish that we could make it
My cheavy and I, my cheavy and I
You and I**

3.

but you're so far away,
oh baby I'm on my way
to conquer you
